

Cultural Homestay International

VIRTUAL STEP

What is Virtual STEP?

The world is going virtual, is your business ready? Hosting a virtual volunteer is a fun way for your business to join the community online. University students from around the world have joined this program hoping to learn about business and culture through their home computers. They would love to be a small part of your company by volunteering their time, and sharing their culture in exchange.

How Does it Work?

Every type of business is welcome to join, and the hours and tasks are up to you. Volunteers can help with anything accessible through a computer.

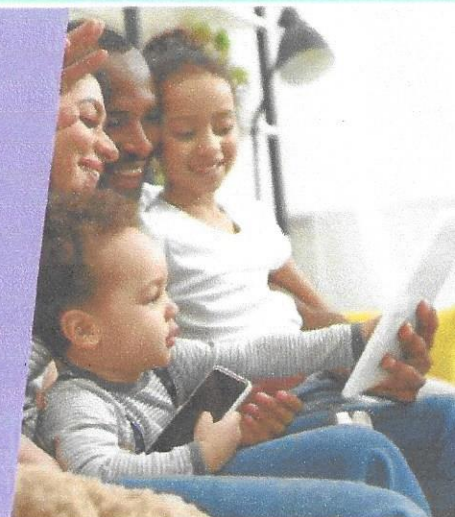

Examples of tasks:

Data entry, Bulk customer emails, Social Media, Translations, Graphic Design, Marketing campaigns, Surveys, Assisting with projects or classes, and anything else you can imagine.

Keep in mind these are international university age participants, so skills and English ability varies. Please let us know if your tasks require specific skills in advance, and we will do our best to find a suitable participant.

What Else Should I Know?

- Virtual STEP is a 4 week program. New sessions begin every month. Join as often as you want.
- To enhance our participant's experience, we ask you to include them in virtual office meetings, and select a supervisor for general communications and assignments.
- Participants enjoy live cultural and educational lectures once a week as part of their program organized by CHI. If you are interested in presenting about your industry, or any topic you are passionate about, please let us know.
